**DEVICES AND METHODS OF CONTROL**

<b>Features of injection and chromatographic separation of samples in high boiling viscous organic solvents using the capillary columns at a low split ratio</b> <i>Igor G. Zenkevich, Eugene Leleev</i> .....	220
<b>Determination of glycyrrhizic acid in roots of licorice by HPLC method with subcritical dynamic extraction</b> <i>L.V. Pavlova, I.A. Platonov, V.A. Kurkin, E.A. Novikova, I.N. Kolesnichenko</i> .....	229
<b>Application of solid-phase extraction for the quantification of several abused drugs in sports in human urine using UHPLC-MS/MS method</b> <i>E.V. Dmitrieva, A.Z. Temerdashev, A.A. Azaryan, E.M. Gashimova</i> .....	236
<b>Chromatomass-spectrometric identification of electrochemical transformation products of kresoxim-methyl in solutions</b> <i>Tatiana I. Pushkareva, Sergey S. Ermakov, Igor G. Zenkevich</i> .....	245
<b>Identification of impurities in tetrakis(trifluorophosphine) nickel using the gas chromatography-mass spectrometry method</b> <i>A.Iu. Sozin, O.Iu. Chernova, T.G. Sorochkina, O. Iu. Troshin, A.D. Bulanov</i> .....	253
<b>HPLC-MS separation and detection of dialkyl phosphonates and trialkyl phosphites in reaction mixtures of 1-alkanols with phosphorous trichloride</b> <i>Igor G. Zenkevich, Tatiana I. Pushkareva, Vlada E. Nosova</i> .....	259
<b>Gas chromatographic determination of nonpolar impurities in ethanol and acetone using an aluminum oxide filled liner in the injector</b> <i>G.A. Zhuravleva, O.V. Rodinkov</i> .....	267
<b>Nano-sized ion exchangers – stationary phases in capillary electrochromatography</b> <i>D.V. Makeeva, L.A. Kartsova, D.A. Polikarpova</i> .....	273
<b>Application of dispersive liquid-liquid microextraction with 3-methyl-1-octyl imidazolium tetrafluoroborate as an extractant for the electrophoretic determination of steroid hormones in urine sample</b> <i>E.A. Kolobova, L.A. Kartsova</i> .....	284
<b>Voltammetric determination of propranolol enantiomers in the model solutions of pharmaceutical forms and biological fluids</b> <i>R.A. Zilberg, Yu.A. Yarkaeva, Yu.R. Provorova, V.Yu. Gus'kov, V.N. Maistrenko</i> .....	292
<b>Solid phase concentration of phenolic compounds from the aqueous medicinal raw plant material extracts on the example of St. John's Wort (<i>Hypericum perforatum</i> L.)</b> <i>E.A. Shil'ko, V.V. Milevskaya, Z.A. Temerdashev, N.V. Kiseleva</i> .....	303
<b>Graphic image of high quality wines</b> <i>O.N. Shelud'ko, N.K. Strizhov, T.I. Guguchkina, T.V. Guzik</i> .....	315
<b>Carbon-mineral materials classification by principal component analysis</b> <i>E.N. Terekhova, A.P. Komov, I.V. Vlasova</i> .....	327
<b>Bayesian approach to improve the reliability of control of water quality</b> <i>O.M. Rozental', L.N. Aleksandrovskaya, A.V. Kirillin</i> .....	334

**INFORMATION**

<b>In Memory of Gennadii Nikitovich Anoshin (17 July 1938 – 19 December 2016)</b> <i>S.B. Zayakina, S.M. Zhmodik</i> .....	341
